GREAT ADVENTURES START HERE

WIDEX UNIQUE™
LIVE LIFE LARGE

NEW HORIZONS IN HEARING

The Widex UNIQUE hearing aid pushes the barriers of what you can hear with hearing aids. Louder and softer sounds. More conversation. In fact, all the important sound details around you.

But not every day has to be an adventure.

Whether you're riding up a mountain or riding down the road, UNIQUE lets you comfortably hear more sounds wherever you are, whatever you are doing.

CAPTURES MORE SOUND

Push your limits, no matter what the situation.

UNIQUE captures all the sounds you need, from the highs to the lows, from the loud to the very quiet. No other hearing aid can provide you with such a wide range of comfortable, audible sounds.

PURE, CLEAN SOUND

Make the most of every experience.

Only UNIQUE can reduce unwanted soft sounds (such as the humming of a refrigerator) and maintain useful soft sounds (such as quiet speech). And when you're outdoors, UNIQUE significantly reduces wind noise, no matter what the conditions.

ANYWHERE, ANYTIME

Enjoy supreme sound in any environment.

UNIQUE cleverly and quickly adapts automatically to any listening situation you find yourself in, no matter how complex.

COLORS AND MODELS

UNIQUE is available in four Behind-the-ear (BTE) models and three In-the-ear (ITE) models. Your hearing care professional can help you choose the ideal model for your specific hearing loss and lifestyle.

All UNIQUE models are available in a wide range of stylish colors to suit all tastes. You can choose between 15 different colors for BTE models and three standard colors for ITE models.

KEEP CONNECTED

The UNIQUE experience doesn't stop with the hearing aid.

With our new COM-DEX you can stream from any mobile phone to your hearing aids - hands-free and without any fuss. Your hearing aid can also be controlled remotely with the COM-DEX app: an easy-to-use and convenient way to adjust volume, sound direction and program settings.
